

Origin Bank makes it possible for you to provide your employees with payroll options, regardless of their circumstances. Whether your employees have an established bank account, want to initiate a new account, or have been unable to qualify for an account, Origin Bank's Payroll Solutions can help. With Payroll Solutions, you can implement a complete suite of payroll products and services to manage all of your needs.

DIRECT DEPOSIT OF PAYROLL

Automatically credit your employees' payroll to their checking or savings account at Origin Bank or any other financial institution. With Direct Deposit through Treasury Management Online Banking, you will save resources and reduce costs by not having to write payroll checks or having to place stop payments on lost checks.

OB@WORK

OB@work is a personal banking program available to employees of participating businesses. Employees enrolled in OB@work are eligible to receive free and discounted financial services, along with an increased rate on regular time deposits. Employees who open a OB@work account receive a gift card coupon, which may be exchanged for a \$25 Origin Bank Visa Gift Card.*

PAYROLL CARD SERVICES

The Payroll Card enables you to offer a Direct Deposit option for employees who do not want or may not qualify for a bank account. Their pay is loaded onto a Visa secure stored value card. Employees can access their pay by using the card anywhere Visa® is accepted, by receiving cash back when making a purchase, or by withdrawing funds from a bank or ATM.

*Accepting the Origin Gift Card requires the bank to report a 1099-INT to the IRS.
